SAN FRANCISCO'S GREAT DAILY

The Bonanza

through a special arrangement with the Bulletin, beginning April 1st, will deliver to old and new subscribers of The Bonanza the San Francisco Bulletin without extra charge.

Tonopah Daily Bonanza \$1.25 Per Month
San Francisco Bulletin

The Bulletin is recognized as San Francisco's leading daily and furnishes the best mining and stock report entering the State of Nevada.

The Bulletin's sporting news is famous from Coast to Coast.

...Subscribe Today...

The Tonopah Daily Bonanza at the regular rates and the Daily Bulletin are offered to all subscribers who pay their subscriptions in advance, both of in and out of town subscribers. Do it now and subscribe for the Daily Bonanza—two daily papers for the price of the Daily Bonanza.

The Bulletin is read by more people on the Pacific Coast than subscribe for all other San Francisco dailies.

TEN STAMP MILL FOR THE JOHNNIE

AL MYERS PROPOSES TO ADD ANOTHER PRODUCER TO THE SOUTH.

It was announced last night that within a few weeks another mill would be built in the Johnnie district this county, on the property of the Nevada Johnnie Mining company, which lately passed under the control of Al D. Myers. The property was formerly the Bullfrog Johnnie, but within the past two weeks Mr. Myers succeeded in purchasing outstanding stock sufficient to give him the control, paying therefor, it is said, the sum of \$25,000 cash.

Work has been in progress on the ground for some time, and a shaft has reached the depth of about 160 feet, with considerable lateral work. It is estimated that there are about 3000 tons of ore already on the dump which will be the first to be handled by the proposed mill. The average value of the ore being taken out at this time is said to be \$35, with enormous bodies of it yet to be developed. The property adjoins that of the Johnnie Consolidated, in which Mr. Myers is also heavily interested, having formerly been president of the company.

The proposed mill is to be of the

ten-stamp variety for the time being, so arranged that additional units may be added at any time the production warrants it. At this time there has not been a sufficient amount of work done to justify the construction of a larger plant, but it is expected that with the control passing into the hands of Mr. Myers, the working plans will be greatly enlarged upon, and the property will experience very systematic development henceforth.

Mr. J. K. Turner, associate of Mr. Myers, and engineer for all the Myers interests, said last night that Mr. Myers was in New York, and would probably not return for some time yet. His trip, however, it was explained, had nothing whatever to do with the taking over of the control of the Nevada Johnnie, which was the name adopted at the reorganization of the old Bullfrog Johnnie.

PLENTY WATER AT LAS VEGAS

The last well to be drilled for artesian water in this valley has proved a wonder. As reported in the Age last week, the well being drilled for F. F. Miller, by Fox and McCullom, eight miles south of town, developed a small flow of water at the depth of 140 feet, and every indication pointed to a good flow when

feature is that fact that, while the lower waterbearing stratas were reached, at 200 feet, says the Las Vegas Age.

However, at the depth of only 170 feet the drillers were surprised at the tremendous flow of water encountered. A careful measurement was made and it is reported that sixty miners' inches of water are flowing from the twelve-inch casing. The news caused considerable excitement in the city, everyone being surprised at this unexpected development, the largest well bored to this time flowing only about twenty-five inches.

So far, in the water development of this valley, every well has been a success. Some of the wells are small, but the least of them are worth far more than they cost. It is supposed by many that this is the first well that has been driven into the main flow of the underground waters, and that the wells already drilled would have their flow wonderfully increased by sinking to greater depth.

The success of the Miller well gives new encouragement to those who are trying to build up the agricultural interests of the Vegas valley, and will result in much more rapid progress in opening up new ranches. Not the least important the cost of the new well was less than \$500, and the land on which it is located was valueless government land only a short time ago, the property is this week worth between \$50 and \$100 per acre.

STOCK MARKET

Yesterday's transactions on the San Francisco stock and exchange board proved that the Tonopah stocks were looked upon favorably. The dealings were heavy with the result that the high market reached Saturday was maintained. In the Goldfields there was a little falling off, though with one or two exceptions the slump amounted to but very little.

Tonopah Mining remained at \$7 bid with none of the stock for sale. Montana-Tonopah was strong at 95 cents bid and 98 asked. Extension rose a point and is now quoted at 63 cents bid, the highest it has been for a long time. MacNamara, Midway and Belmont each declined a point.

Consolidated, the premier of the southern camp, fell off 10 points, being quoted at \$6.60. Booth ascended a cog in the stock wheel and at .15 bid. Red Hills also advanced a point.

The following quotations are received by the reliable brokerage firm of H. E. Epstine:

| Tonopah District. | |
|---------------------|--------|
| Tonopah Mining | \$7.00 |
| Montana | .95 |
| Tonopah Ex. | .63 |
| MacNamara | .32 |
| Midway | .20 |
| Belmont | .89 |
| North Star | .03 |
| West End | .30 |
| Rescue | .02 |
| Jim Butler | .11 |
| Goldfield District. | |
| Consolidated | 6.60 |
| Columbia Mt. | .10 |
| Booth | .15 |
| Atlanta | .16 |
| Great Bend | .09 |
| Florence | 3.05 |
| Daisy | .22 |
| Fraction | .71 |
| Kewanas | .10 |
| Red Hills | .08 |
| Bullfrog District. | |
| Montgy. Mt. | .03 |
| Amethyst | .01 |
| Valley View | .03 |
| Mayflower | .13 |
| Pitts. Sil. Pk. | .50 |

TONOPAH KIDS WON.

It was a sorry day for Goldfield Sunday. In the morning games between the Goldfield Newsboys' nine and the Tonopah Midgets, the latter carried off the honors after a game replete with excitement.

DOCTOR SMITH THINKS WELL OF GEORGES CANYON

According to Dr. Smith, who came in from Georges canyon yesterday, that district is coming to the front nicely. The doctor is one of the owners of the Smith and Fancher property which is looked upon as one of the premier holdings of the district. He is also interested in a lease on the Stimler ground which he reports as looking very good. The shaft has now reached a depth of thirty-five feet at which point the vein is twenty inches wide carrying values up in the hundreds. This vein widened in that depth from 3 to 4 inches on the surface.

The Stewart lease on the Stimler ground is also looking good. Messrs. Cutting and Averill of this city is also interested in this lease. Work here consists of tunneling for the vein which at surface occurs in the nature of a stringer assaying well up in the yellow metal.

On the Miles and Myers lease, the ore body is from eight to ten inches wide, returning from \$600 to \$1000 per ton. A shipment can be made from this property any time now.

The ground of Tom Griffin shows a ledge one foot wide of ore that pans well.

As depth is made in the district horn silver shows plentifully in the ore which is always taken as a sign of permanency.

Many people are beginning to arrive in the district. Those who visit Georges canyon have the kindest feeling for it and express themselves as convinced of the camp's future possibilities.

The townsites of Marsh has not as yet been formally opened. Despite the fact that there is a demand for real estate there, the promoters are abiding their time. They do not wish to take the public's money without having first convinced themselves that the district will make good. It is an ideal place for a camp. Timber is plentiful, while a stream flows through the townsites proper.

Dr. Smith looks to see a big town in the canyon before another year rolls around.
